Organizer Group	Event handler
Created By	swathi
Start Date	11/06/2026, 17:30:00
End Date	12/06/2026, 16:30:00
Outcome	The Blood Donation Camp, held on October 26, 2023, within the university premises, successfully achieved its primary objective of contributing to community health initiatives through voluntary blood collection. The event witnessed robust participation from students, faculty, and staff, collectively demonstrating the university's profound commitment to social responsibility. Initial reports indicate a significant number of successful donations, directly bolstering regional blood bank reserves and providing vital support for medical emergencies. The efficient processing of donors, from registration to post-donation care, ensured a smooth and positive experience for all participants. Operationally, the event was executed with commendable efficiency, reflecting meticulous planning and seamless coordination among all involved departments and volunteers. Resource allocation, encompassing medical personnel, equipment, and logistical support, was optimized to ensure both donor safety and comfort. Furthermore, financial oversight was diligent; operational costs were meticulously managed, resulting in the event being

completed precisely within the allocated budget of ₹1000. This fiscal prudence, coupled with the significant humanitarian impact achieved, classifies the Blood Donation Camp as an unqualified success, reinforcing its value as a recurring university outreach program.

Event Summary

The **Blood Donation** event was conducted at **Ground** in **offline** mode under the **Other** category. The event targeted approximately **200** participants and was managed by **Event handler**.
